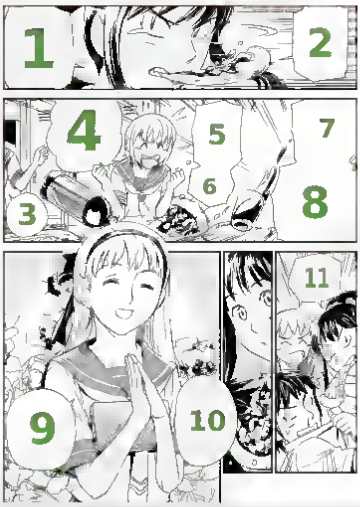
Installfest

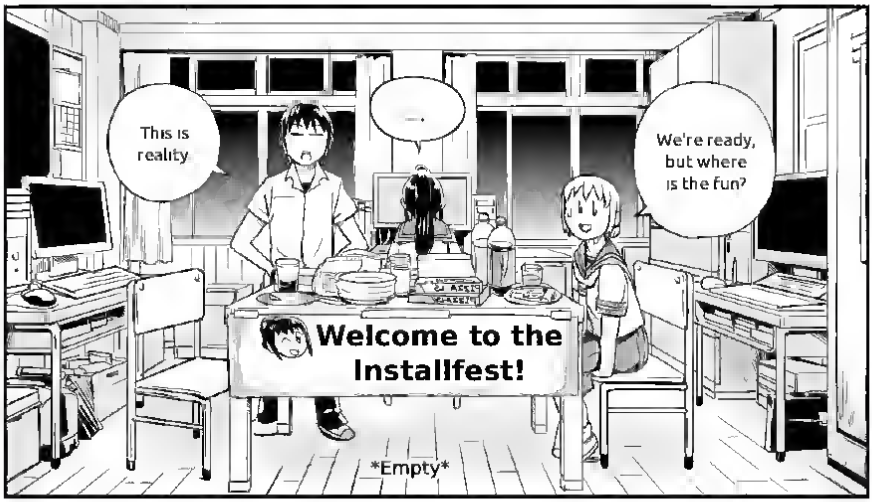
This comic is presented in an edited Greek/Roman left-to-right format, in order to improve readability as much as possible. The orientation of the artwork has changed and readers accustomed to "manga-style" right-to-left are encour-aged to download that edition of this comic.

If you prefer readability or simply don't wish to spend time working out something new, please continue. Use the guide on the right to see an example of the reading order that you will be accustomed to if you are from a country that writes in this fashion:



Installfests
A Festival of Free and Open Source Software
Where the experienced students gather...
Try turning off ACPI
It's booting!
...to gently hold the hands of the newcomers with their first install.
Such beauty turns the heart of even the most hardened monopolist
It was just an embarassing misunderstanding!
It's OK
Everything's alright now, Akiha
Me Too!
Lift your eyes and behold, the new dawn of Ubunchu is now upon us!
CLAP
CLAP
CLAP

But...
That was just the chief's delusional expectations of the event...



This is reality
...
We're ready, but where is the fun?
Welcome to the Installfest!

Perhaps the poster is a bit...
Faithful Disciples!

We'll do everything in our power to support your Ubuntu installation!
Syndrum Club

It seems perfect to me
On the contrary, this is the expected outcome

Isn't this proof that everyone's living a healthy life? As opposed to geek girls whose lives revolve around Linux
HA HA HA
GRRR!

Who are you calling a geek?!
I'm far from the only one!
There are plenty of beatiful Linux-loving highschool girls!
There's no such thing!
And I don't see any beauties here!
Please stop fighting like cats and dogs!
Knock Knock
Excuse me...
Yes?
Your poster informed me that you could help me install my computer?

Club Theatre / Drama
Diva and natural beauty
Impossible!
Urara, the drama club diva?!
It seems your google-fu isn't what it ought to be
No way she's a Linux fanatic!
It's not in my fact sheet on her. It's just not possible!
My dear father gave me this netbook
Windows 7
Home Premium
But I can't bear my father's taste in operating systems!
I'm so ashamed to be so ungrateful!
I understand
moved
I understand your feelings exactly.
But the USB port is broken and now I don't know what to do!
Leave it to me!

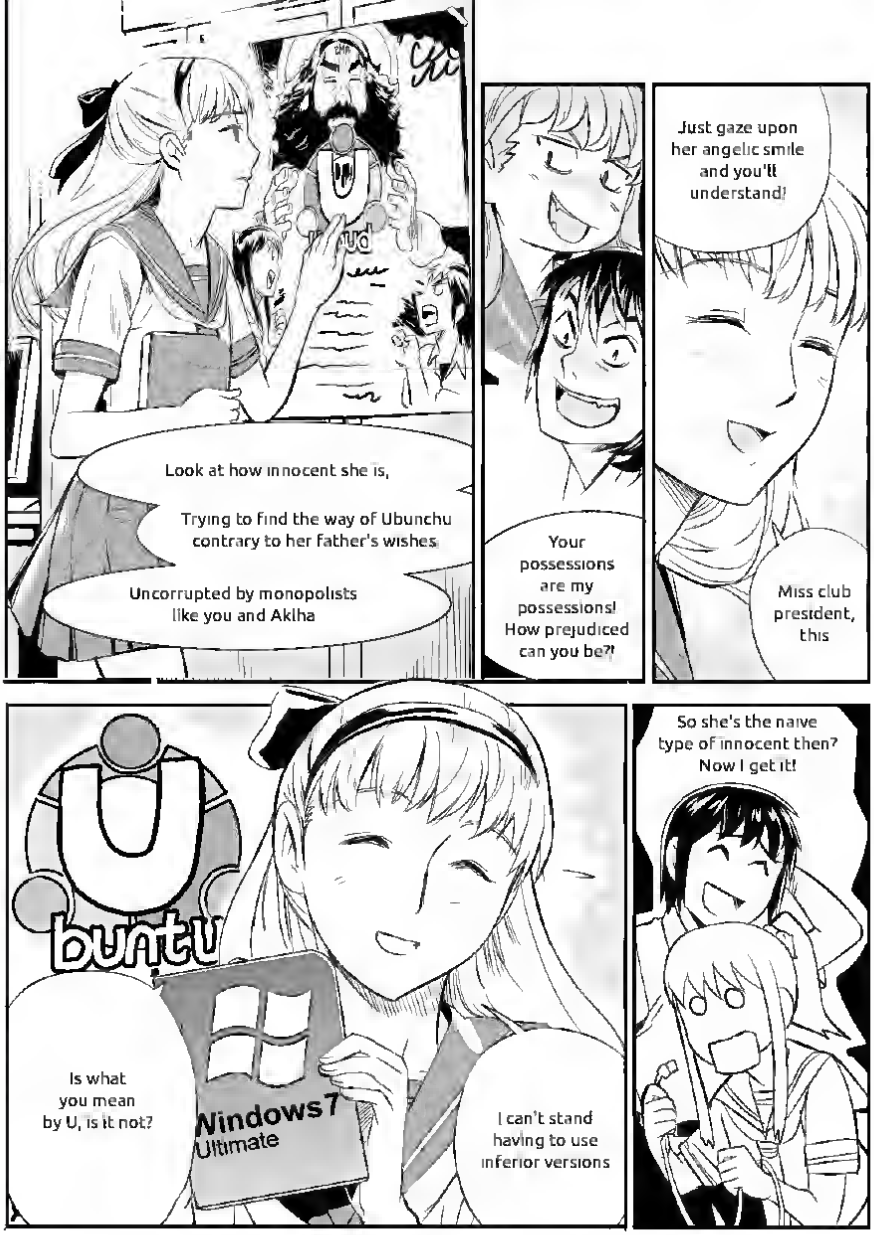
Network
One of the strong points of Ubunchu
Is the many ways of installing it
Optical media, Flash disks
Or if you can't use external media
You can even boot the installer over the network!
Just a minute
We'll have it installed in a jiffy!
Thank you very much!
Don't let your guard down, Akane
whisper
Would you please stay away? Your weak google-fu might be contagious
There's no way this is what it seems
It might be a plot by the comp-sci club!
Hah!
You just don't get it, do you?



Look at how innocent she is,
Trying to find the way of Ubunchu contrary to her father's wishes
Uncorrupted by monopolists like you and Akiha
Your possessions are my possessions! How prejudiced can you be?!
Just gaze upon her angelic smile and you'll understand!
Miss club president, this
Is what you mean by U, is it not?
Windows7 Ultimate
I can't stand having to use inferior versions
So she's the naive type of innocent then? Now I get it!

I can't believe it!

Thank you for the sympathy, but
I will ask father to buy me a new netbook,
Take care!
Now just wait a minute!

We can't just let a broken laptop walk out of the sysadmin club!
I'll show you

Let's celebrate our first install!
Even if it was another OS...
You're welcome!
I know I'm asking for too much, but
Can I have this?

Installation numbers for Jopan:
Windows 7: 1
Ubuntu 9.10: 17!

The End.

It wasn't much, but at least we got a little result

It's a first step, prez!
